## Welcome to CEFC 2024

The 21st Biennial IEEE Conference on Electromagnetic Field Computation (IEEE CEFC 2024) will be held in Jeju, Korea, June 2 – 5, 2024. This conference will be a full face-to-face one.

IEEE CEFC is one of the most important scientific and technical events in computational electromagnetics and related fields. Its aim is to present the latest developments in modeling and simulation methodologies for the analysis of electromagnetic fields and wave interactions. Application emphasis is on computer-aided design of low and high frequency devices, components, and systems.

Scientists and engineers worldwide are invited to submit original contributions in areas related to Static and Quasi-static Fields, Wave Propagation, Material Modeling, Coupled Problems, Numerical Techniques, Optimization and Design, Software Methodology, Nanomagnetism, Nanophotonics, Bioelectric Field Computation as well as Devices, Applications, and education.

The conference will feature oral and poster presentations.

All accepted 2-page Digests will be published as part of the conference records in IEEE Xplore Digital Library. Authors are also invited to submit an extended 4-page version for peer review. Selected papers, based on reviews, will be published either on IEEE Transactions on Magnetics or included in IEEE Xplore Digital Library as conference proceedings. No additional fee is requested in either case. Full papers will need to be submitted at IEEE Manuscript Central site as authors of accepted Digests will be directed.

## Venue

The conference will be held in Jeju Island, Korea, which is a popular tourist destination among domestic and international travelers for its beautiful and pristine natural scenery. It is a unique place worldwide, holding the honors of the natural science area such as UNESCO World Biosphere Reserve [2002], UNESCO World Natural Heritage Site [2007] and UNESCO World Geoparks Network [2010]. Jeju Island also consists of all elements for global natural sight theme, including island, volcano, waterfall, beaches, national park, caves, and forest.

The venue for the conference, ICC JEJU, is located in the Jungmun Tourist Complex with the cobalt-blue Northern Pacific stretching on the south and towering Mt. Hallasan in the north.
